

# Table of Contents

<b>Preface .....</b>	1
Purpose of this Manual .....	2
How this Manual is Organized .....	3
Low Impact Development Applications.....	3
<b>Chapter 1: Introduction .....</b>	5
1.1    Puget Sound Hydrology .....	5
1.2    Impacts of Urbanization .....	6
1.3    Current Stormwater Management.....	10
1.4    Low Impact Development.....	11
<b>Chapter 2: Site Assessment .....</b>	17
2.1    Soil Analysis.....	18
2.2    Hydrologic Patterns and Features .....	18
2.3    Native Forest and Soil Conservation Areas .....	19
2.4    Wetlands .....	19
2.5    Riparian Management Areas .....	21
2.6    Floodplains .....	22
2.7    Site Mapping Process .....	23
<b>Chapter 3: Site Planning and Layout .....</b>	27
3.1    Roads, Driveways and Parking.....	28
3.2    Road Crossings.....	43
3.3    Street Trees.....	44
3.4    Lot Layout.....	46
3.5    Building Design .....	51
<b>Chapter 4: Vegetation Protection, Reforestation, and Maintenance .....</b>	53
4.1    Native Vegetation Protection.....	54
4.2    Reforestation.....	58
4.3    Maintenance .....	60
<b>Chapter 5: Clearing and Grading .....</b>	61
5.1    Techniques to Minimize Site Disturbance .....	62
<b>Chapter 6: Integrated Management Practices .....</b>	65
6.1    Bioretention Areas .....	65
6.2    Amending Construction Site Soils .....	90
6.3    Permeable Paving .....	97
6.4    Vegetated Roofs .....	122
6.5    Minimal Excavation Foundation Systems.....	128
6.6    Roof Rainwater Collection Systems.....	133

<b>Chapter 7: Washington Department of Ecology—Low Impact Development Design and Flow Modeling Guidance</b> .....	141
7.1    Permeable Pavements .....	142
7.2    Dispersion .....	146
7.3    Vegetated Roofs .....	149
7.4    Rainwater Harvesting.....	150
7.5    Reverse Slope Sidewalks .....	150
7.6    Minimal Excavation Foundations .....	150
7.7    Bioretention Areas (Rain Gardens) .....	151
7.8    WWHM Instructions for Estimating Runoff.....	156
<b>Chapter 8: Hydrologic Analysis.....</b>	161
8.1    Emerging Modeling Techniques.....	162
<b>Appendices:</b>	
Appendix 1: Street Tree List .....	165
Appendix 2: Bioretention Design Examples .....	175
Appendix 3: Bioretention Plant List.....	185
Appendix 4: Bioretention Research.....	199
Appendix 5: Phytoremediation.....	203
Appendix 6: Sampling of Plant List Species Studied for Phytoremediation .....	209
Appendix 7: Permeable Paving Research .....	215
Appendix 8: Permeable Hot-mix Asphalt Sample Specification.....	221
Appendix 9: Vegetated Roof Design Specification Example .....	225
Glossary.....	231
References .....	235
